

**GENIO**

**Introducing the shapeshifter.**

**GENIO**  
**LONG**

**Mahindra**  
Rise.

Born of smart ideas to take your business places, the Genio is available in a range of variants to suit your needs. With a carrying capacity in excess of 1,220kg it will more than deliver as a cargo carrier, and with its aerodynamic form, plush interiors along with all the business-class comforts that come as standard, you'll never believe you're driving a bakkie!

The Genio was designed from the ground up with your requirements in mind. It comes either as a double or a single cab, and the single cab is further available in options that include the Chassis Cab, Dropside, Flatbed<sup>†</sup> and Maxivan<sup>†</sup>. The newly launched Genio Long\* extends this promise with an extra-long loadbox that is 2,700m long, 1,770m wide and 365mm high, providing a load area of 4,788m<sup>2</sup>, over 1m<sup>2</sup> more than the standard dropside. It provides the perfect solution for small business owners that require a cost-effective utility vehicle with an exceptional cargo carrying capacity, carrying loads that one would usually only associate with much larger vehicles. And with its well-appointed spacious cabin and car-like driving experience, it makes being in the driving seat a pleasure.

## VERSATILITY IS WHERE IT'S AT.

*Above: The load box on the Genio Long provides over 1m<sup>2</sup> than the standard dropside*

*04 - The well appointed and spacious interior will ensure you have a comfortable drive*

*05 - The 2-DIN Audio System supports MP3, CD, SD Cards and USB*

# power

Powered by Mahindra's legendary 2.2l mHawk turbodiesel engine, the Genio packs a punch towards the top of its category with an output of 88kW @ 4000 rpm and a torque of 290 Nm @ 1800-2800 rpm. It's fuel frugal too, with a combined cycle of 7.91/100km, so you'll be able to go even further on the generous 74l fuel tank.

## COMFORT & CONVENIENCE

The Genio single- and double-cabs deliver in the comfort stakes without compromise, from super-comfortable semi-bucket seats with front-back adjustment and recliner options, to power steering for effortless driving and manoeuvrability, a car-like gearshift and one of the most spacious cabins in this segment.

The stylish instrument cluster provides all the information you need at a glance and boasts a trip counter, whilst the 2-DIN Audio System supports MP3, CD and SD cards as well as USB standard on all derivatives. There is even a charge point for your mobile devices to ensure you will never lose touch.

## SAFETY

The Genio is equipped with disc and caliper brakes on the front and ABS (anti-lock braking system) as standard across the range. In addition to the key located crumple zones which are designed to absorb most of the impact in the event of collision, there are also steel reinforced bars in the doors to keep you safe in the event of side impact.

*01: The Genio Long variant comes standard with hub caps.*

*02: Accessorise your Genio to your specific requirements with one of our canopies designed to meet your needs - ask your dealer for more information.*

*03/04: Genio Maxivan and Flatbed are available from Mahindra on special order only*

## COLOURS AVAILABLE
